TO: ALL EMPLOYEES

DIRECTIVES No. 05-2025

In line with AmberCash PH Micro Lending Corporation's commitment to promote fair compensation, operational efficiency, and staff welfare, the following directives are issued to update and strengthen key policies that impact both employees and partners. These changes aim to ensure equitable salary structures, proper handling of staff contributions, and enhanced opportunities for our agents and group leaders.

I. SALARY ADJUSTMENT BRACKETS FOR ALL EMPLOYEES

We are pleased to inform all concerned employees that the management has approved the implementation of new salary adjustment brackets for positions ranging from Probationary Loan Officer (LO) up to high-ranking supervisors, effective **September 1, 2025**.

This adjustment is part of the company's commitment to maintaining a competitive and fair compensation structure that aligns with industry standards and reflects the scope of responsibilities, performance expectations, and cost-of-living considerations.

The updated salary brackets are designed to:

- ✓ Standardize compensation levels across operational roles;
- ✓ Encourage improved performance and accountability;
- ✓ Simplify salary progression for staff as they advance through different employment statuses and ranks.

In addition, brackets for transportation were also realigned to ensure that each employee is motivated to reach more clients, as transportation allowance will now be performance-based. The more clients reached, the higher the transportation allowance that may be earned — serving as additional income and reinforcing our pay-for-performance principles.

We trust that this new structure will serve as a motivation for all staff to consistently perform with excellence, uphold company values, and aspire to higher levels of responsibility and leadership. Let us continue working together toward growth, professionalism, and operational excellence. The new brackets will apply to the following positions:

II. REALIGNED TRANSPORTATION ALLOWANCE STRUCTURE FOR LOAN OFFICERS

To promote fairness, efficiency, and proper allocation of resources, the company is implementing a **realigned structure for the transportation allowance of Loan Officers (LOs).** This adjustment ensures that transportation support is proportionate to their actual fieldwork requirements and operational coverage. The realignment is designed to optimize budget utilization while maintaining the mobility of Loan Officers in performing client visits, loan releases, collections, and other field-related activities.

Through this policy, the company aims to sustain operational productivity, support the Loan Officers' mobility needs, and ensure that funds are properly aligned with the actual demands of their respective assignments. Additionally, this initiative motivates Loan Officers to expand their client base, as higher engagement and productivity will directly contribute to increased transportation allowances—boosting both their personal earnings and the company's overall growth.

The table below presents the new structure for the transportation allowance of Loan Officers. This system ensures fair and proportionate allocation based on fieldwork demands while rewarding those who successfully grow their portfolio.

Staff CBU - The Staff Capital Build-Up (CBU) is a voluntary savings program offered by the company to its employees, aimed at promoting the habit of saving and providing an additional source of financial security. All staff of the corporation are encouraged to participate by regularly contributing to their CBU account, which earns a 10% interest per annum. This program not only helps employees grow their savings but also strengthens their financial discipline. The CBU has a required maintaining balance, ensuring that a core amount is always preserved as savings. Any amount in excess of the maintaining balance may be withdrawn only in cases of emergency or for important purposes, **subject to a written request and approval by the Vice President**. This initiative is part of the company's commitment to supporting its employees' long-term financial stability. Any remaining balances is refundable upon separation from the company, subject to clearance and settlement of any liabilities.

CASH BOND serves as security against accountabilities shortages, or obligations that may arise during their employment. It serves as a safeguard for the company in case of losses, damages, or unliquidated advances, while also promoting a sense of accountability among employees. Each position in the company has a designated **ceiling limit** for the required cash bond. When an employee is promoted or elevated to a higher position, the required amount will be adjusted to match the ceiling limit set for that new position, and deductions will continue until the updated amount is reached. The cash bond remains the employee's property and will be refunded in full upon separation, provided there are no pending liabilities or shortages.

Failure to comply with the contribution requirements may result in administrative action and/or withholding of certain employee benefits until full compliance is achieved.

The adjustment of CBU and Cash Bond contributions is a proactive measure to:

- Strengthen the company's security fund to safeguard against operational risks done by the employees itself.
- Increase employee equity for future benefit upon separation.
- Ensure adequate coverage for any losses or damages caused by operational lapses of employees.
